

Mentee Alumni Program

By Nikki-Anne Szuman

As recent graduates and professionals from Baruch College, members of the Mentee Alumni Program (MAP) have often asked themselves “what can I do to give back to my school after my mentoring experience”? The mission of Executives on Campus MAP is to foster a community of young professionals interested in networking with one another through events, workshops and social media. In some way we have all been impacted by EOC’s mentoring programs, and we are looking to give a fresh perspective on the mentoring experience with casual and relaxed interactions between the Mentors and Mentees. MAP will allow past EOC peers and current mentees to build relationships and stay connected. As students grow and develop throughout their EOC mentoring experience, our goal is to guide them in becoming the next generation of Mentors in EOC’s mentoring programs.

With an “on-the-go” lifestyle that many of us live with today, MAP members look to foster an engaging and seamless environment for all in the EOC community; to promote them with a robust mentorship experiences. As a result, MAP has created an online **Rolodex Program** that will allow EOC Mentees to view MAP member profiles with information such as their major at Baruch, club affiliations and professional work experience. We hope to serve as an additional resource to the EOC Mentees and Mentors: to help address any industry-specific or major-specific questions they may have, as well as to bridge the gap between Mentors and Mentees. When students reach out to us through our Rolodex Program, we will be able to help them improve their communication skills with their Mentor, guide them on business etiquette, and also provide advice on the transition from college to career. Furthermore, when graduates become members of MAP, they will have access to a network with numerous young professionals like themselves.

MAP will be active throughout the academic year, so you will see us hosting and attending various events on and off campus. Whether through EOC sponsored events or MAP hosted events, you will have various opportunities to interact with us and hear about MAP. One of the events we are most excited for is the ***Becoming a Star Mentee*** workshop that will be held on **October 15th from 12:30pm-2:30pm**. This workshop will focus on one of the main goals of the MAP program: helping Mentees in the Academic Year-Long Mentoring Program get the most out of their mentorship. We will also explore how MAP can help EOC Mentees throughout the year to make sure they gain the most out of the mentoring experience.

Events are not the only way Mentors and Mentees will be able to interact and keep up with MAP. MAP will also be utilizing various social media tools to keep MAP members, Mentors and students up to date. We will regularly post articles about different events of interest to the EOC and MAP community that are available to attend. We will also post career development and industry-related articles. All this and more will be accessible from our main site, so there will be an abundance of information right at your fingertips.

MAP members are here to be accessible to you: EOC Mentors and Mentees. We believe it is important to utilize every resource available to you. We hope that your EOC experience is a valuable one, and we hope to be a part of it.
